LEADING ONCOLOGIST CONTRERAS AVAILABLE TO DISCUSS BRAIN CANCER: Senator Edward Kennedy Diagnosed With Malignant Tumor

WHAT: Massachusetts Sen. Edward M. Kennedy was diagnosed this week with brain cancer. Kennedy, 76, was diagnosed with a tumor in his left parietal lobe after a series of tests at Massachusetts General Hospital in Boston. Preliminary results from a biopsy of his brain identified the source of a seizure he suffered Saturday on Cape Cod as malignant glioma.

WHO: Dr. Francisco Contreras is a cancer surgeon recognized as an expert in combining conventional and alternative therapies. As the President and Chairman of the Internationally acclaimed Oasis of Hope Hospital, Dr. Contreras oversees the treatment of 800 cancer patients annually.

Through his practice, books, interviews and conferences, he shares easy and practical ways to reduce the risk of cancer, heart disease and chronic illnesses. Oasis of Hope is a member of the American Hospital Association.

WHEN: By appointment

NOTE: To schedule an interview with Dr. Contreras, contact Steve Yount at steve@alarryross.com or 469-438-7011.
