Daniel Kennedy of the Oasis of Hope Hospital has been counseling cancer patients since 1993. It wasn't until 1995 at his sister's home in San Diego when his own father announced that he had been diagnosed with renal cancer that the fight against cancer became personal for Kennedy.

Daniel Kennedy (:30) OC: "...grandfather to my kids."

Daniel Kennedy's father David has since been healed of cancer enjoying every possible precious moment with his two granddaughters.

Daniel Kennedy (:37) OC: "...my best friend."

Daniel will never forget that moment that cancer attacked the Kennedy family as he quickly understood the tragedy in life is not death, the tragedy is never living the days we are given.

Daniel Kennedy (:35) OC: "...whole support team."

That support team is what the Oasis of Hope Hospital is all about.

Daniel Kennedy (:29) OC: "...and for the spirit."

Kennedy's desire is that more people will one day understand that cancer is not a sentence of death.

Daniel Kennedy (:34) OC: "...each day that you have."

Daniel Kennedy is in the process of accumulating even more names of people with cancer so that he can take all of them to the Western Wall in Jerusalem for the June 5th Worldwide Cancer Prayer Day.

Daniel Kennedy (:29) OC: "...who are facing cancer."

Over the next few days Daniel Kennedy will add the names of others compiling the list from the website www.CancerPrayerDay.org. This is John Clemens.
